Letter of Compliance

We confirm that Lochcarron of Scotland only source dyes and chemicals from suppliers who fulfil their obligations under UK and EU REACH.

REACH (Registration, Evaluation, Authorisation and restriction of Chemicals) is the system for controlling chemicals in the UK and EU. It originally became law in the UK on 1st June 2007, through the implementation of Regulation (EC) No 1907/2006 of the European Parliament. Under the European Union (Withdrawal) Act 2018, the EU REACH Regulation was brought into UK law on 1 January 2021 and is known as UK REACH.

Lohcarron of Scotland do not use dyes or chemicals (or their components) in the manufacture of our products for any purpose other than that which they have been designed for, and is committed to the following:

- Monitoring the ECHA information on chemicals and implements controls as it is required to by law
- Retaining accurate chemical data and supplier compliance statements.
- Ensure that fabrics do not contain any substances of very high concern (SVHC) above a concentration of 0.1% (w/w).

New and existing products are regularly reviewed to ensure there is compliance with the above listed items.

Issued 11 December 2023
